## RADIATORS

### HEAVY DUTY A/C LINE REPAIRS & REBUILDS

Keep your cab cool with our long lasting and customized air conditioning lines.

We can customize A/C lines based on your machine's needs and carry all industry standard hose sizes and fittings in our extensive inventory.

### A/C LINE REPAIRS IN 1 DAY OR LESS

- We'll have your A/C lines repaired in 1 day or less!
- Fast, reliable service for trucks and off-highway equipment
- We manufacture all styles of A/C lines
- Available in steel or aluminum fittings

### WHAT YOU NEED TO KNOW ABOUT A/C LINES

#### A few frequently asked questions:

**Q. Do I need to bring in my existing A/C line for servicing?**

**A.** Yes, we measure the length of your existing A/C line as well as determine the fitting type(s) before manufacturing a new one. So yes, it's key that you bring in your existing A/C line.

**Q. How do I know if my A/C lines need replacing?**

**A.** The most obvious reason your A/C lines need replacing will be that your machine is not "blowing cold air." Before that, you may notice temperatures are inconsistent or the air is a strange smell.

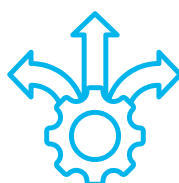

### WHAT SETS APART OUR AC LINES

#### Eaton EZ-Clip System

We use one of the highest performing A/C assembly and repair systems on the market today.

#### Flexible Hose Lines

Flexible hose lines offer advantages over rigid tubing, including routing ease, vibration absorption and sound deadening.

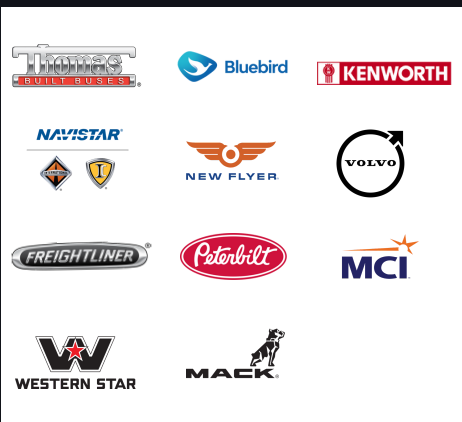

#### Extensive Inventory

We stock the majority of fittings, at both our Winnipeg and Saskatoon locations.

#### A/C LINES

### FOR ALL HEAVY-DUTY OEMS

#### CONSTRUCTION & TRANSPORTATION

#### AGRICULTURE & FORESTRY

#### MINING & OIL & GAS
