

WESTEND RADIATORS

DIESEL & HYDRAULIC FUEL TANK SERVICING

From building a new tank entirely out of steel or aluminum, to rebarreling existing tanks, or simply replacing a tank's strapping — **we can do it!**

WHY CHOOSE WEST END RAD

OUR DIFFERENCE

Here's a few of the things that set us apart:

- We strive for **2-3 day turnaround** on fuel tank servicing to minimize downtime.
- Our welding department is well-versed in welding both **steel and aluminum diesel fuel tanks**.
- We have **three locations to serve you**, located in Winnipeg, Saskatoon & Estevan.
- We offer **custom wet kit installations** as needed.

CUSTOM DIESEL TANKS 39% THICKER THAN THE OEM

- Thicker Material, Longer-Lasting & 100% Leak-Free!
- Industry-Leader in Western Canada.
- Custom Fuel Tanks for All Heavy-Duty Industries
- Custom Wet Kit Installations.

3 OPTIONS FOR

DIESEL FUEL TANK SERVICING

Fuel Tank Rebarreling

If our technicians suggest a complete fuel tank rebarreling, we will get your sign-off on the quote and **require a minimum of 2-3 business days** to complete the work.

New Fuel Tank Straps

We manufacture **unique straps and barrels** for fuel tanks of various sizes, allowing for customized solutions that guarantee a flawless fit and durable performance.

Fuel Tank Patching/Welding

If your existing fuel tank can be repaired with patches, the turnaround is dependant on the size of patch, quantity, etc..but **typically requires 2-3 business days** once we have sign-off on the quote.
