GOLD SERVICE

2-4 HOURS DOWN TIME

On-site pre-measurement of existing generator radiator. Core is manufactured in-house and pressure tested prior to generator disassembly. Generator radiator is then disassembled onsite and reassembled with the new core and required gaskets, bolts etc...

SILVER SERVICE

1 DAY TURN AROUND

On-site pre-measurement of existing generator radiator. Core is manufactured prior to the generator arriving at our shop. Radiator is then removed from the generator and either picked up or delivered to us. Disassembly, cleaning of tanks, side plates, reassembly and pressure tested. Radiator is then delivered to the customer.

BRONZE SERVICE

2-3 DAY TURNAROUND

On-site pre-measurement of existing generator radiator. Core is manufactured in-house when the existing radiator arrives at our shop. Disassembly, cleaning, reassembly and pressure test. Radiator is either picked up or delivered back to the customer.
