

WESTEND RADIATORS

REPLACE YOUR HVAC-R COILS IN HALF THE TIME

Exact fit and top quality heating & cooling coil replacements ready for install in 6 weeks or less!

THE BENEFITS OF OUR HVAC-R COIL

AFTERMARKET REPLACEMENTS

Did you know, HVAC-R coils from the OEM should be cleaned and inspected on an annual basis? If corrosion is evident, it's time to replace them.

Our HVAC-R aftermarket coils are heavier duty than the OEM, designed to withstand corrosion and moisture and manufactured from copper-brass and aluminum. Our coils are ideal for a range of businesses, including mines, welding and mechanic shops, schools, hospitals, fertilizer and agriculture companies and more.

Call us today and we'll replace your HVAC-R coils in 6 weeks or less!

That's 1/3 of the time of our competitors.

WHY CHOOSE WEST END RADIATORS OUR DIFFERENCE

Here's what sets our HVAC-R coils apart:

- Quick responses on quotes with detailed dimension sheets for your confirmation.
- Faster turnaround than competitors with coils manufactured and delivered within 6 weeks or less.
- Team of skilled engineers on-staff to ensure we can properly replace coils for any model.

CUSTOMER FEEDBACK TESTIMONIAL

Lake of the Woods District Hospital, Kenora ON

What our other coil customers have to say about working with us.

"You were able to quickly determine the correct course of action to get our cooling system once again operational under very tight timelines, source the required parts, and communicated well throughout the entire process. We were able to get our system fully operational as quickly as possible. Your help and expertise are greatly appreciated, and we look forward to working with you in the future."

— Larry Somers, Manager of Facilities and Plant Services at Lake of The Woods District Hospital
