

WESTEND
RADIATORS

ALUMINUM
HEAT EXCHANGERS

Custom aluminum parts ready when you need them

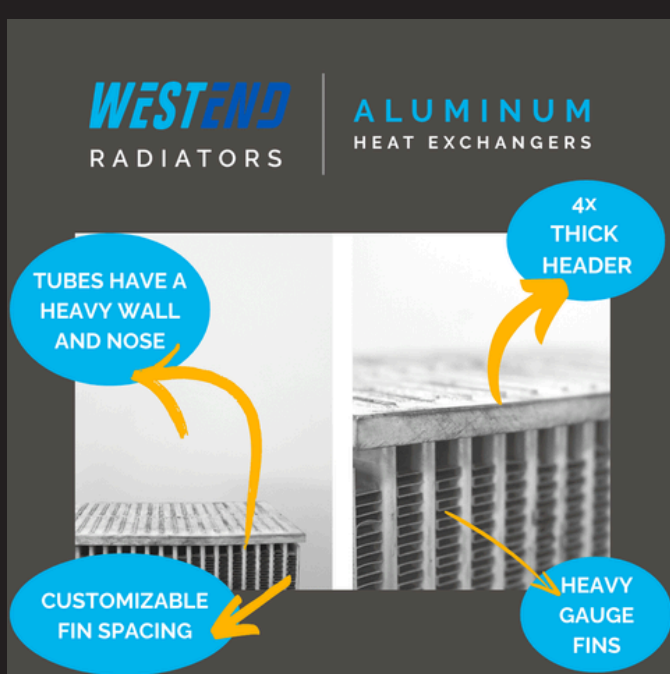

Here's the difference our custom aluminum heat exchangers can make

- ✓ Manufactured in-house for rapid turnarounds
- ✓ Available for all industries and applications
- ✓ Up to 50% heavier duty
- ✓ Built for extreme usage, temperatures and conditions

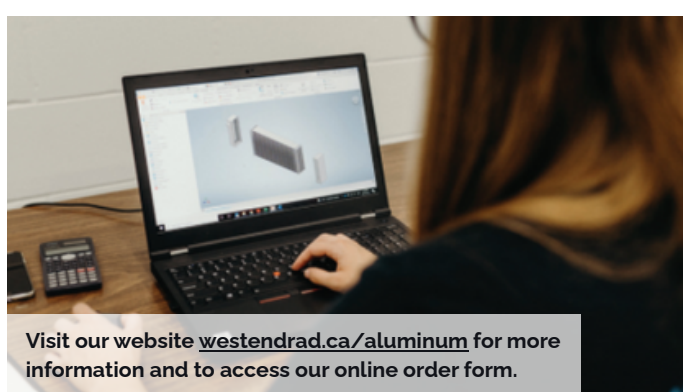

Aluminum Heat Exchangers Like Never Before

- We're the only aluminum core manufacturers in Western Canada
- 100% **Canadian-made** aluminum parts
- Heat exchangers built to your exact specifications

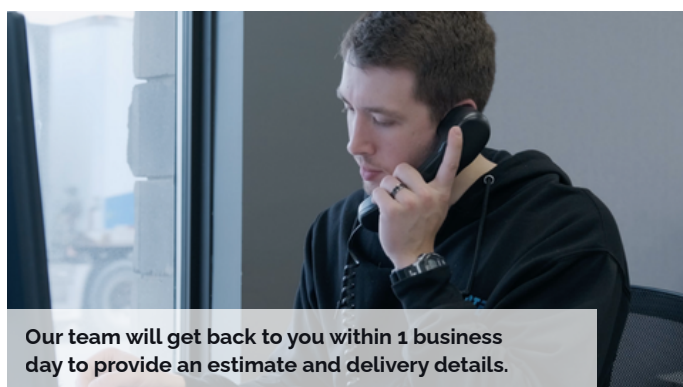

The Difference In Our Parts

- Made to withstand extreme climates
- More robust core design
- Built with the highest quality components
- Produced by a team with hundreds of years of combined experience.
- 1-year warranty on all aluminum heat exchangers

Visit our website westendrad.ca/aluminum for more information and to access our online order form.

Our team will get back to you within 1 business day to provide an estimate and delivery details.

HOW TO ORDER

Ready in half the lead time

Order By Phone

Give us a call and provide your exact measurements and details or your existing part number.

Order Online

Fill out our Core Order Form with as much detail as possible, including measurements of your core, header and fins.

MEET OUR TEAM

Specialized technicians committed to reducing lead times

Here's a few of the things that set us apart:

- Our team is made of individuals from **around the world**
- Our aluminum heat exchangers are **superior** to those of our competitors
- We're **Western Canada's leader** in industrial cooling systems
